

EDUCATION	
Amity University Noida	Noida, India
Master of Computer Application;	June 2025 – Present
Amity University Gurgaon	Haryana, India
Bachelor of Computer Application; CGPA: 6.72	June 2022 – June 2025
Secondary School	Delhi, India
Kendriya Vidyalaya A.A.I Rangpuri	June 2019 - May 2021

SKILLS SUMMARY	
• Languages:	Python, SQL, HTML, Css, Javascript, PHP
• Frameworks:	Pandas, Numpy, Scikit-Learn, Matplotlib, Seaborn
• Tools:	Power BI, Excel, PowerPoint, Tableau, MySQL, Git
• Platforms:	PyCharm, Jupyter Notebook, Visual Studio Code, Google Colab
• Soft Skills:	Communication, Team Collaboration, Analytical Thinking, Curiosity

WORK EXPERIENCE	
Data Analyst Intern Afame Technologies LINK	June 2024 – July 2024
- Assisted in cleaning and organizing large HR datasets, ensuring accurate data for analysis and reporting. - Developed reports and visualizations using data analysis tools (Excel, SQL). - Collaborated with team members to enhance data processes and reporting capabilities.	
Machine Learning Intern Nova Nectar Private Limited LINK	July 2024 – August 2024
- Learning and Exploring New Skills Like: convolutional neural networks (CNNs) for facial feature extraction and real-time processing optimization, Linear Regression, Image Classification system using deep learning techniques to categorize images into predefined classes, Basic of NLP. - Completion Project: Facial Recognition System with CNNs and Image Classification Using CNNs.	

PROJECTS	
Sales Data Analysis – Afame Technologies LINK	June 2024 – July 2024
- Cleaned and prepared large-scale sales datasets for analysis. - Identified sales trends, calculated total revenue, and pinpointed best-selling products. - Created visualizations using Python (Matplotlib, Seaborn) and Excel to present insights. - Enhanced decision-making support for business growth through data-driven reporting. Skills Used: Python, Pandas, Data Visualization, Excel, Sales Analytics	
HR Data Analysis – Afame Technologies LINK	June 2024 – July 2024
- Performed data cleaning by removing unnecessary columns and renaming fields for clarity. - Eliminated duplicate entries and handled missing values (NaNs) to ensure data integrity. - Sanitized critical fields to enhance the quality and reliability of HR datasets. - Developed insights into HR processes through structured data preprocessing. Skills Used: Python, Pandas, Data Preprocessing, Data Cleaning, HR Analytics	
Image Classification using CNNs Nova Nectar Private Limited LINK	July 2024 – August 2024
- Built an image classification model using Convolutional Neural Networks (CNNs) in Jupyter Notebook. - Processed and augmented image data to improve model accuracy and performance. - Trained and validated the model to categorize images with high precision. - Applied concepts of deep learning and computer vision to solve a real-world classification problem. Skills Used: Python, TensorFlow, Keras, CNN, Deep Learning, Jupyter Notebook	

CERTIFICATES	
1. MACHINE LEARNING (INTERNSHALA) CERTIFICATE	2023
2. WEB DEVELOPMENT (INTERNSHALA) CERTIFICATE	2023
3. CERTIFICATE OF APPRECIATION (DEVTOWN) CERTIFICATE	2024
